

**Be a part of the premier event for water quality professionals around the world!**

The AWWA Water Quality Technology Conference® & Exposition (WQTC) attracts thousands of water quality professional from around the world every year. Drinking water quality is receiving more attention then ever-from the media, the public, and lawmakers. Advances in contamination detection, increased media and public scrutiny, and heightened security concerns are creating challenges that must be faced head-on. Water quality professionals facing these challenges turn to the AWWA Water Quality Technology Conference® & Exposition for answers. Attend WQTC for a comprehensive and cutting-edge technical program, an unmatched exhibit hall and the chance to network with colleagues and leaders in the water industry.
